UPDATE: IIU investigating after pedestrian dies in fatal traffic accident

Yesterday, the Winnipeg Police Service notified the IIU about the irregular and improper conduct of two officers in the immediate aftermath of the October 10th traffic fatality in which a 23-year-old pedestrian died after he was struck by a vehicle driven by a Winnipeg police officer.

The IIU has assessed the nature and circumstances of the matters contained in this most recent notification. The original investigation into the circumstances of the fatal motor vehicle accident continues.

In addition to its original investigation, the IIU will now also gather evidence and investigate the conduct of the further two officers and determine whether charges should be laid against either or both of them.

As all these matters are subjects of active investigations, IIU will not be releasing any further details until it has completed its work.

The initial investigation was announced on October 11, 2017.
