Final Report now available: IIU concludes investigation into serious injuries during arrest

On August 9, 2021, the Independent Investigation Unit (IIU) had issued a media release advising that it had concluded its investigation into the circumstances surrounding the arrest of a 26-year-old male that resulted in him sustaining a collapsed lung.

The final report of the IIU was not released as the affected person had charges pending before the Courts as a result of the incident. Those charges have now been disposed and the IIU final report is now available on the IIU's website. The details of this investigation were first announced on November 16, 2020.
