Case Number 2023-0033

## **Final report now available: IIU concludes investigation into single motor vehicle collision in Long Plain First Nation**

On June 10, 2023, the Manitoba First Nations Police Service (MFNPS) advised the IIU of an incident that occurred at approximately 1 p.m. that same day. According to the notification, MFNPS officers were conducting a traffic stop to investigate a possible impaired driver. After the driver had exited the vehicle, a male passenger in the car jumped into the driver's seat, drove away and eventually rolled the vehicle in a ditch. He sustained injuries and was airlifted to Health Sciences Centre Winnipeg for treatment.

As this matter concerned serious injuries as defined under the IIU regulations, the IIU was mandated to investigate.

The final report of the IIU was not released as the affected person had charges pending before the courts as a result of the incident. Those charges have now been disposed and the IIU final report is now available at [www.iiumanitoba.ca/media.html](http://www.iiumanitoba.ca/media.html).

The details of this investigation were first announced on June 12, 2023.
